

Dr. Googe

Patient Guide

Knee & Hip

PRE-OP

Appointment

David Googe, MD · Kristen Brezina, PA-C · Clay Morgan PA-C · Julie Boutwell, MA

1) When and where is my pre-op appointment?

Typically pre-op appointments are made 3 weeks prior to your surgery. Someone from the clinic will call you to confirm your pre-op appointment. Your pre-op appointment will take place at Orthopedic Specialists of Louisiana -Shreveport located at 1500 Line Avenue, Shreveport, Louisiana, 71101.

2) How long will my pre-op appointment take and may I bring a loved one with me?

Please allow for 2-4 hours for your pre-op appointment. We strongly encourage a loved one to come with you to help you assimilate all the information.

3) What should I bring to my pre-op appointment? Do you have to fast? What should I wear?

Please bring your photo ID and your insurance information. You may also want to bring a book or ipad. Even though you will have some blood work completed, you do not have to fast... feel free to bring some snacks and water. We also have a snack shop, if you would like to purchase on site. Wear loose easy fitting clothing and you may want to have a sweater or sweatshirt... the clinic and hospital run a bit on the chilly side!
